# Credo Technology Group Protects Itself from Data Loss with Backupify

backupify

a datto company

**WITH BACKUPIFY, I KNOW THAT MY DATA IS PROTECTED. IT'S THE PREVENTATIVE MAINTENANCE THAT I NEED TO KEEP MY BUSINESS RUNNING SMOOTHLY. "**

**Eric Johnson**  
Co-owner

Credo Technology Group provides corporate and consumer IT and marketing services including computer repair and maintenance, network design, web development, and inbound marketing. As IT professionals, they know the importance of backup and how data loss can impact businesses. Currently, they use Backupify for G Suite to protect themselves from data loss.

### Backupify Is Preventative Maintenance For Data Loss

Eric Johnson is a co-owner of Credo and wanted to implement a backup solution that would save the company both time and money in the long run.

"I'm always looking at that latest and greatest technologies for running my business efficiently. Backupify is a no brainer. The cost of losing a piece of data can be astronomical due to the impact it has on productivity; you can lose time with trying to locate the file or with having to rebuild the asset completely. With Backupify, I know that my data is protected. It's the preventative maintenance that I need to keep my business running smoothly," explained Johnson.

### Backupify's Intuitive Ui Makes Search And Restore Easy

"We use Backupify to protect our G Suite accounts. I had a situation recently where I needed to locate an important email. I wasn't able to find it in my Gmail account. I was able to easily log into Backupify, find the email I was looking for, and restore it back into my account. Backupify's intuitive interface makes it easy to search and find the files you need."

From a support standpoint, Johnson has also seen success with Backupify's 24/7/365 team standing by.

"The support I've received from Backupify has been fantastic. Their customer service team is responsive and friendly. It's great to know that Backupify is there when we need it."

### About Backupify

Backupify, a Datto company, is the leader in cloud-to-cloud backup, enabling enterprises to extend data protection and accessibility best practices to the cloud. Backupify gives IT professionals the security and control they need against data loss from user errors, external threats, and service failures.
